DETAILED ACTION

Election/Restrictions

Because the applicants add new system claims in 12/03/2004 (while previously elected method claims in 1/02/2004), restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, and 9, drawn to a method for preparing a plurality of mail pieces, classified in class 705, subclass 408.
- II. Claims 18-19, drawn to a system for producing a mailing object, classified in class 358, subclass 1.1

The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 846.05(e)); in this case the claimed system comprising very common structural components that are not necessary used for preparing a plurality of mail pieces: a data center, and different remote computers connecting to that data center for communication between related parties; this claimed system can be used to practice another different process (merely intent of use - e.g., the claimed system can be used to process Internet consultations, or a process of distinguishing mail pieces based on weights, or a process of charging mail pieces based on different selected method of delivery, or a process of checking delivery status for orders .etc.).

Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CUONG H. NGUYEN whose telephone number is 703-305-4553. The examiner can normally be reached on 7:15am - 3:45pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas G. Black can be reached on 703-305-8233. The fax phone number for the organization where this application is assigned is 703-305-7687.
